

## Chicken-Keeping Permit Requirements

*Applicants are required to sign at the end of this form indicating acknowledgement of the submittal requirements. Please upload the signature page along with your digital application.*

The following items shall be submitted for a chicken-keeping permit:

- Scaled drawing of the lot on which the chicken coop/pen are proposed with site dimensions provided.
- Chicken coop and pen dimensions shall be shown to scale.
  - Maximum size is 100 sq. ft
  - Maximum height is 7 feet from existing grade to highest point.
- Specify construction materials to be used.
- Demonstrate tie-down methods to be used for coop/pen. Mobile units are prohibited unless properly anchored to the satisfaction of the building official.
- Provide information demonstrating that the coop is covered, ventilated and that it is impermeable to rodents, predators, and weather.
- Indicate space per chicken in coop. (Not to be less than three sq. ft. per chicken.)
- Indicate proposed required yards/setbacks dimensioned to the property lines.
- Indicate proposed distance from any residential structure on an adjoining lot.
- Building location(s).
- Indicate screening proposed – coops and pens must be completely screened from adjacent roadways and parcels.

Note: If a participant chose to leave the pilot program, they must provide notice to the City.

Please contact the Community Development Department at (407) 539-6248 if you require additional information concerning application procedures.

***As the applicant, I confirm that the application requirements above have been provided. Please indicate any items deemed not applicable and provide an explanation in the space provided below. If you need more space, please attach as a separate document:***
